

Heatmap visualization of gene expression data across 15 cell lines (rows) and 15 genes (columns). The color scale ranges from 0 (black) to 100 (red). The cell lines are CA001_C2, CA001_C1, CA001_C3, US001_C2, US001_C1, US001_C3, US003_C3, US003_C1, US003_C2, BG001_C1, BG001_C2, BG001_C3, RU008_C2, RU008_C3, RU008_C1, TR001_C1, TR001_C3, and TR001_C2. The genes are listed on the right side of the heatmap.
